OCTOBER next, directed to the Churchwardens, Aylham,
Wiltshire, who will give any further information required.

ST. MARYLEBONE, Oct. 3, 1932
TO SCATFORDS CARTERS &c.
The Vestrymen of the Parish of St. Marylebone,
in the County of Middlesex, hereby give Notice, that they
will meet in the Board-room of the Court house of the said parish,
on **SATURDAY, the third day of OCTOBER** next set afloat, at
ELEVEN o'clock, to consider and determine whether they are
willing to **CONTRACT for CARTING AWAY THE SLOP and**
WASTE **arising from the WAREHOUSES** of the said parish, the **var-**
ious **quantities and providing all horses, carts, drivers, slip-chains,**
and other things necessary for the purpose of carting away the
slop **arising from the supply of houses and drivers only to the parish**
at one shilling and sixpence per day; and also for the supply of drivers
with horses and drivers at six pence per day. The tenders in all cases to be
made in writing, and to be delivered to the Vestry Clerk, at the
residence, from the **first day of NOVEMBER** next. The Vestry is di-
vided into seven distinct divisions for the purpose of electing, at
particulars of which, and also of the date of electing, together
with the manner of electing, will be published in the Vestry
minutes, **the BARNET PLACE**, at his daily residence at the Court
house, from Twelve till One o'clock. The Vestry had their own **workmen,**
and their payments are made half-yearly. All tenders to be upon
the printed form, and to be delivered to the Vestry Clerk, sealed
under the **KEY**, to a Commissioner, at the residence of the
Commissioner, on **WEDNESDAY, the 11th day of OCTOBER**, next, at
Eleven o'clock. The contractor to pay the expense of the contract
and bond, via cover returns. The Vestry do not pledge them-
selves to accept the lowest tender. By order,
W. H. VESTRY, Clerk.

VENTILATION—PURE AIR

With sample pulleys, from six each; with leading pulley, from six each.
These pulleys are to be of the portable quantity; all of them to be adapted for the draught system, and without the necessary draught lines, fast to the sheaves; and as they are placed in the external wall, their action is not impeded when the hoists are closed for the evening, at which time a constant supply of fresh air is admitted. AWARD: BETHLEHEM, PA., 1884. The Board of Directors of the Pennsylvania State Prison, Harrisburg, Pa., and of all responsible manufacturers, builders, &c.

BAD VENTILATION. In the year 1841: Mr. W. F. PHILLIPS, Member of the Select Committee of the House of Lords, declaring the ventilation of the "Red" system of Ventilation, and offering a system certain of success. In further evidence, that Mr. Phillips himself was told by his late Lord, Lord Ventilation of the New House of Commons, that the rule laid, or failing those words, "No man shall be allowed to enter the House of Commons unless he has planned some members of the late Parliament as to induce them to vote the same way against nature to be the propriety,"—i.e., from street, Strand

BAD VENTILATION.—Some 100,000 tall pipes, carrying the smoke of the fuel gas from the houses of London, prove the necessity of a standard construction chimneys, for there has to be found in all London a single standard or set of houses free from needless smoke arising from the chimneys. The standard is upon the simple plan presented by the inventor, **W. H. PHILLIPS.**

Notes.—Whole rows and streets of first, second, and third class houses, and of all descriptions of houses, are ventilated, and are free from the smoke nuisance. A single house, or row of houses, or a whole row, or other class of a limited house. For Houses, A. apply to **W. H. PHILLIPS and Co. Patents, 11, Essex street,**

SMOKY CHIMNEYS.

SUTER'S VENTILATING WIND-GUARD.

(Registered U.S.)

Is a certain cure for Smoky Chimneys, and will effectually Ventilate
Close Rooms or Buildings.

EXHIBITED AT THE GREAT EXHIBITION, 1851.

Price 15s. Made of strong Zinc, to fit 10-inch Chimney Pot, and made to any size or shape, at a small additional charge.

This Guard from its peculiar construction and novel action, entirely prevents the external air entering the top of the Chimney, and exhausts the air in the Chimney, making a continuous up draught; thereby perfectly ventilating any rooms or buildings where there is no fire, and effectively preventing the return of smoke into any room where there is a fire.

TESTIMONIAL

"Sir.—Your Ventilating Wind Guards have been simply tested on our premises for the last three months, and they have given us great satisfaction: we consider them a cheap, simple, and efficient remedy.

—City-road, June 2nd, 1882.

"(Signed) J. MORDAK and CO."
